

The Problem

PROBLEM STATEMENT : MEDICINE STOCK MANAGEMENT

Clutter pharma market

Analog system

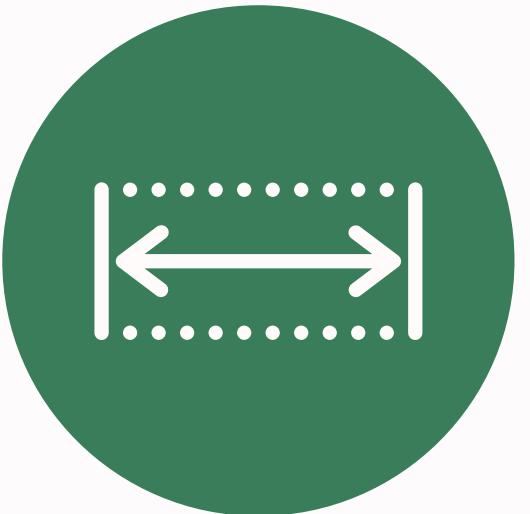

Non Connectivity

Non Digitalisation

The Solution

it connects different players in the supply chain ,streamlines communication, and ensures seamless coordination.

it connects different players in the supply chain ,streamlines communication, and ensures seamless coordination.

U.S.P

- High efficiency waste heat conversion
- Compact form factor
- Customizable integration
- Long lifespan and durability
- Environment friendly
- Promoting sustainability
- Reliable performance in various condition
- Ease of integration and use

PharmaLink.

INDUSTRY OUTLOOK

pharma supply
industry employs
5.5-5.7 lakh
people

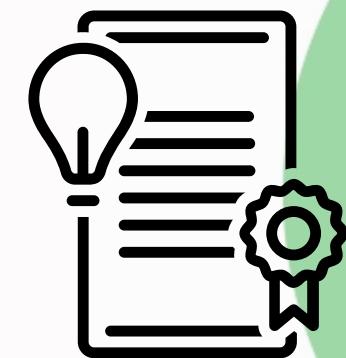

indian pharmacy
market currently
stands at 30 billion
USD

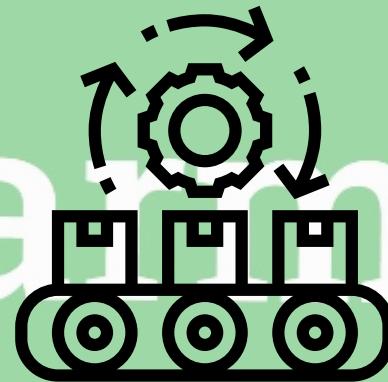

CAGR of 9.9%
during 2022-2030

Market Strategy

PharmaLink.

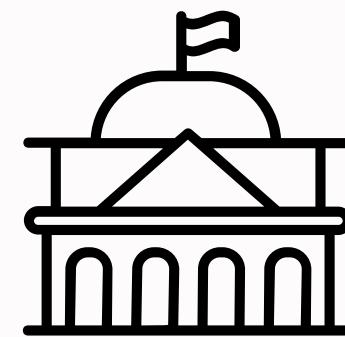

developing software

vast retailer connections

distributor chain

Qualitycontrol

Partnership
and alliances

Revenue

renting software

transact Fees

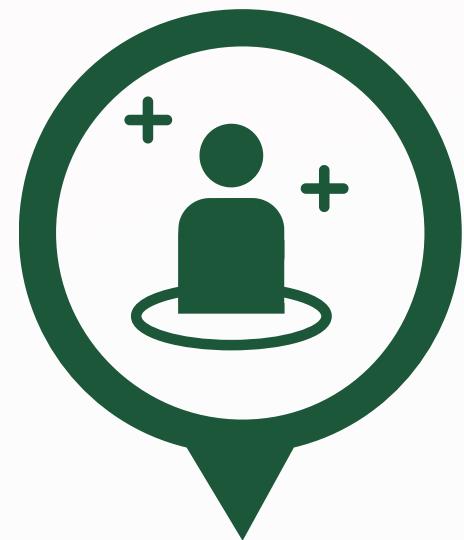

Future Goals

connecting major pharmaceutical manufacturers

Maximizing efficiency and utilizing time

Cost cutting while ordering bulk

Regulatory framework

PharmaLink
YOU

The logo features the word "PharmaLink" in a white sans-serif font, with the letter "A" in black. A small blue square dot is positioned at the end of the "k". Below it, the word "YOU" is written in a large, bold black sans-serif font. The entire graphic is set against a light green background that includes a large circle behind "PharmaLink" and a smaller circle overlapping the bottom of "YOU". Two thick green curved lines extend from the sides of the circles towards the top and bottom edges of the frame.
